Champlain Printing
c/o Mrs. Bella Kotler

Dear Bella,

Working with you and your team for over 26 years has not only been a pleasure, but a simplified transition over the years from cut and paste typesetting, to digital press ready artwork and prompt printing and delivery. It is great to know that you can still have quality personal service and great prices in today's competitive market.

In one sentence, you know you have the best supplier when you can count on them from the moment you have placed your order, up until delivery with knowledge that your orders are being taken care of from A to Z.

Sincerely

Manon Trottier
Production Manager
